Health Project

Integrating science and technology to optimize well-being. Providing research-backed insights and daily protocols to enhance sleep, energy, and productivity.

Typescript | NextJs | TailwindCss | Framer-Motion

<https://github.com/ParsaProg/chess-naami-academy>

<https://health-mauve-five.vercel.app>

DevFlow - Project Managment System

Architected a production-grade project management platform for collaborative teams. Engineered core features including workspace management, Kanban-style issue tracking, and real-time activity feeds. Implemented advanced functionality such as analytical dashboards, team velocity metrics, and granular role-based access control (RBAC).

Typescript | NextJs | TailwindCss | NodeJs | Express | Postgresql | Prisma
